What makes our designer furniture different from the others trying to sell similar designs? Firstly it is the quality. We use top quality materials and workmanship in every piece. Second are the specifications. We work hard to ensure that you are getting a piece of designer furniture as close to the original design as possible. Thirdly is the guarantee. You can tell the quality of furniture by what is offered. We have the best quality reproduction designer furniture in New Zealand and we fully back our furniture with comprehensive warranties, unlike those other cowboys that only offer a below standard 1 year warranty or less! There is a huge difference when it comes to quality.
